The whigs key policy positions were the supremacy of Parliament (as opposed to that of the king), tolerance of Protestant dissenters, and opposition to a Catholic (especially a Stuart) on the throne. After the huge success of the Glorious Revolution of 1688-1689, Whiggism dominated English and British politics until about 1760, although in practice it splintered into different factions. After 1760 the Whigs lost power, apart from sharing it in a few short-lived coalitions, but Whiggism fashioned itself into a generalized belief system that emphasized innovation and liberty and was strongly held by about half of the leading families in England and Scotland, as well as most merchants, Dissenters and professionals. The opposing Tory position was held by the other great families, the Church of England, and most of the landed gentry and officers of the army and the navy. Whigs who opposed Walpole often called themselves Old Whigs and comprised part of the Country Party. Whiggism referred originally to the Whigs of the British Isles, but in its Old Whig form was largely adopted by the American Patriots in the Thirteen Colonies. American Whiggism was known as republicanism.
